HI 👤

Hi! I'm Ewan Watkins, a passionate Graphic Designer that has just graduated from UWTSO. I have a great work ethic and thoroughly enjoy being a graphic designer. Branding, websites and editorial designs are something that I particularly enjoy working on, as well as app design and motion graphics. I love the process of bringing projects to life on screen from brainstorming, to sketching ideas and finalising on screen. I have a love for simplicity and producing professional clean outcomes. As a fluent Welsh speaker, I am able to adapt my designs to the preferred language when desired.

I have 3 years experience working as a freelancer and completing a BA Graphic Design course to a high standard. I have been involved in the process from initial client briefing to production of work. So, my knowledge of the whole design process is very good. I am very competent at dealing with clients and manufacturers. I am extremely enthusiastic to learn and grow with in a company with other designers that can push my learning further as I am very aware that finishing university does not mean the end of my education.
